Project update

Recent ASX announcements

4 June 2019

 Clean TeQ commences a partnering process for our Sunrise Project, working with Macquarie Capital

30 April 2019 – Quarterly Update

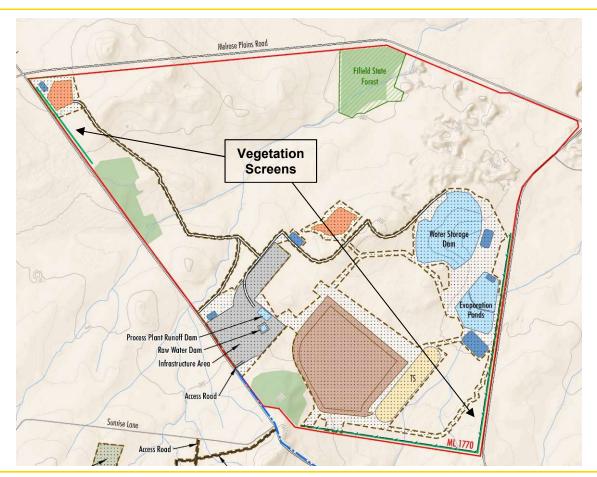

- Construction and commissioning of three commercial-scale ion-exchange metal recovery and water purification plants nearing completion in DRC, Australia & Oman
- Clean TeQ Sunrise front end engineering and design progressing steadily with approximately 20% complete
- Market conditions remain favourable for EV battery materials nickel was the best performing base metal on the LME in Q1 2019

Project update – early works

• Vegetation Screen

- Initial works have commenced to establish mine site vegetation screens
- Exact positioning of vegetation screens to be determined based on results of final designs and survey

Project update – early works

• Fibre Optic Cable

- Fibre optic cable from Fifield to the mine site and accommodation camp installed
- Works conducted by Telstra

Our presence in the region

- Parkes office is now operational
 - Branding to be installed this month
- Our shopfronts at Condobolin and Trundle continue to be managed by the community team

Site management update

Land Management

- Spraying for Bathurst Burr
- Feral pig eradication program underway
- Fox baiting commenced
- Repairs & protection to groundwater monitoring bores
- Grazing stock keeping fire hazard down

Emergency Management

Upgrade to communications for emergency purposes

Accommodation Camp

Layout approval received from DP&E

Resources Regulator

- Appointment of Statutory Roles
 - Quarry Manager
 - Electrical Engineer
- Safety Management System
 - Development of SMS progressing
- Metalliferous Industry Safety and Health Engagement Forum
 - Inclusion as a participant in MISHEF

Community engagement update

What we've been up to

- Building relationships across the community
 - Provided six project update presentations at Rotary, Lions and Probus Club meetings across Forbes (3), Parkes (2) and Condobolin (1) between April & May
 - Condobolin Probus attending June meeting
- Actively participating in our community
 - Attended the Bedgerabong Country Fair
 - April & May coffee carts held in Trundle jointly with **Trundle** Central School
 - Hosted the Clean TeQ School Holiday BBQ in Condobolin with the Lake Cowal Conservation Centre, Condobolin Landcare and DPI Fishcare
 - Attended the fabba-ulous ABBA Festival in Trundle

Keeping people informed

- Newspaper advertisements
 - Continue to feature in local media
- Keeping our community updated
 - Newsletter published in April
 - May eNews communication distributed to more than 800 subscribers
 - Fact Sheets under review, with a view to publishing soon
 - Community updates on Facebook reached 50,166
 impressions attracting more than 2700 engagements
- Future newsletters to include a CCC column
 - Profile CCC members

Keeping people informed

Website

- Complaints register published
 - Zero complaints received for the period 1 Jan 31 May 2019

Shop fronts

- Condobolin shopfront continues to be busy with enquiries relating to business or employment opportunities
- Visiting Trundle shopfront a minimum of one day per week

Groundwater Management Plan consultation

Consultation with key stakeholders regarding the progress of the GWMP

May 2019

Community engagement policy

1. Policy Statement

This policy defines the principles guiding our interactions with communities affected by Clean TeQ, its projects and operations.

2. Scope

This policy applies to employees of Clean TeQ, its contractors and sub-contractors.

The Government, External Relations and Community function is responsible for implementation of this policy.

3. Definitions

Term	Definition	
Community	Local people, businesses and representative organisations affected by, or who can affect, Clean TeQ's business.	
Community investment	Investment of money or other resources with the intention of benefiting local people and organisations.	
Contractor	A business under contract to Clean TeQ to deliver goods or services.	
Employee	A direct employee of Clean TeQ.	
Social licence to operate	A level of community acceptance that allows Clean TeQ to operate unhindered.	
Sub-contractor	A business under contract to a Clean TeQ contractor to deliver goods or services.	

4. Policy Content

4.1 Values

Clean TeQ is a values-driven company whose vision is to empower the clean revolution.

We are invested in, and connected to, the communities in which we work. Clean TeQ is prepared to be different and has the courage to do things differently to add value while managing the risks to the business.

4.2 Behaviours

Our social licence to operate is directly linked to our people's behaviour in the communities where we live and work. Communities' perception of Clean TeQ is the sum of their individual experiences of our people.

Clean TeQ Holdings Pty Ltd

On the Calendar

- Continue to **actively engage** with our local communities
 - Women's Wellness Expo Condobolin
 - Fifield community Christmas in July evening planned
 - Supporting and attending regional shows commencing in August

Environmental management update

Environmental Management Plans

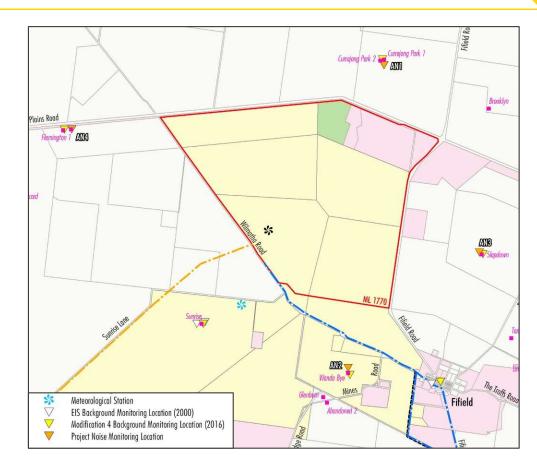

- EMPs prepared for the "initial construction activities"
- All EMPs (excluding Water Management Plan) submitted to the DP&E for review
- Two EMPs (incorporating Modification 4) have been approved by the DP&E:
 - Blast Management Plan
 - Road Upgrade Maintenance Strategy
 - EMPs are published on the website following approval
- EMPs will be revised for re-approval before commencement of any works after the "initial construction activities"

Environmental monitoring – noise monitoring

- Attended monitoring (conducted quarterly) commenced in March 2019
- Monitoring sites consistent with Environment Protection Licence and Noise Management Plan
- No exceedances of criteria recorded

Environmental monitoring – air quality monitoring

- Dust deposition gauges installed in January 2019 and collected monthly
- Monitoring sites consistent with Environment Protection Licence and Air Quality Management Plan
- Depositional dust data located on the Clean TeQ website:

https://www.cleanteq.com/sunrise-project/reports/

Aboriginal cultural heritage – salvage works

- ML 1770 salvage works undertaken in accordance with Aboriginal Heritage Impact Permit
- Registered Aboriginal Parties participated in salvage works
- Aboriginal cultural heritage objects stored in "Keeping Place"

Term	Definition	
Community	Local people, businesses and representative organisations affected by, or who can affect, Clean TeQ's business.	
Community investment	Investment of money or other resources with the intention of benefiting local people and organisations.	
Contractor	A business under contract to Clean TeQ to deliver goods or services.	
Employee	A direct employee of Clean TeQ.	
Social licence to operate	A level of community acceptance that allows Clean TeQ to operate unhindered.	
Sub-contractor	A business under contract to a Clean TeQ contractor to deliver goods or services.	

4. Policy Content

4.1 Values

Clean TeQ is a values-driven company whose vision is to empower the clean revolution.

We are invested in, and connected to, the communities in which we work. Clean TeQ is prepared to be different and has the courage to do things differently to add value while managing the risks to the business.

4.2 Behaviours

Our social licence to operate is directly linked to our people's behaviour in the communities where we live and work. Communities' perception of Clean TeQ is the sum of their individual experiences of our people.

Clean TeQ Holdings Pty Ltd

On the Calendar

- Continue to **actively engage** with our local communities
 - Women's Wellness Expo Condobolin
 - Fifield community Christmas in July evening planned
